

DOUBLE-LOCKED FOR COMPLETE PEACE OF MIND

PRODUCT DESCRIPTION & FEATURES

Newlok™ is a standing seam sheet profile with an effective cover of 445mm and a rib height of 50.8mm for optimal water shedding capabilities at slopes as low as 1.5 degrees. It has exceptional wind uplift resistance when seamed.

Newlok™ may be rolled in Aluminium - Zinc coated steel (resin coated or colour coated), Galvanised steel (resin coated or colour coated) or Aluminium (mill finish or colour coated).

Newlok™ cannot be cranked, reverse cranked or bullnosed.
